### onday December 19, 1870

The Mows.

The news from Europe gives no new elue to the solution of the Franco-Prussian duel. The Prussians undertook to capture Paris, apparently on the presomption that Peris was France. The light has just now, however, dawned on Prussian eyes that Paris is not France ; that the thirty-eight millions of French out of Paris are no longer to be led by the two millions within that city. Hence, if Bismarck succeeds in the capture of Paris, he will still have to fight the thirty-eight millions of French. Besides, since the fall of Sedan, he has kept the ex-Emperor of the French as a State prisoner in Wilhelmslohe, simply, it is said, because there existed no other recognised head of the French nation.

The second of the French nation. Now, however, that he sees no chance of convincing the French Republicane that they have been beaten in detail, he victoria, purposes to place his prisoner on the throne. It is not improbable that with Prussian needle-guns and a French HAVING LEARNED THAT CERTAIN party in favor of the Emperor, the restoration may take place. The great destruction of life and property, and the miseries generally entailed by the war, may induce a large section of the French to walcome bears and section of the French to walcome bears and a French to walcome a large section of the French to walcome bears and the walcome bea to welcome peace with any form of government, or any dynasty. But it is very difficult to believe that the majority be left at B. F. Pickett & Co's. Yates street, as some orders have failed to connect with Head Quarters. of the French people will accept the Emperor at any price. If the old army were not destroyed, there might be a chance of his successful restors But we fear that the Republican leaders and the new levies will continue to fight on; and if the Prussians take Paris, and put the Emperor on the the throne, they will either have to conquer all France or retreat from French soil before peace can take place. Evidently the Germans have a bigger diffieulty to overcome than they had when the war commenced; and we cannot well see how the restoration of the Emperor will get rid of it. French credit, it will be observed by the telegrams, will not be allowed to suffer by the war, for the present government of France have made provision to pay off the interest on the national debt. A government that can borrow on the credit of the nation under such circumstances as now exist in France, and is also able to provide for its indebtedness, is not likely to quietly assent to Napoleon's restoration. Whatever may be the upshot of the war, there don't appear to be much doubt that Paris will soon be starved into capitula-

Ostaris, Mr. David Burn, and another signed "W. B. M." in the Montreal Gazette have been discussing a railway route from Toronto to Moose Factory, Hudson Bay, and thence to British Columbia. Mr. Burn is a capital illustration of a man who is always ahead of the p.m. ing the evening. Dancing will commence at 10 o'clock p.m.

Tickets \$2 each, to admit a gentleman and lady, to be had at the following places:—D. Green's Government street, Stafford & Co., Government and Johnson streets.

H. T. Mann & Co., Fort street, and John Vaughan, Fort street.

Roots

Roots times may occur to a man once in his life : but Mr. Burn we fear is doomed to be at least fifty years ahead of the times now that he has proposed to connect Victoria with Hudson's bay by rail. The route that is proposed to be taken is to follow up Ottawa River to Temiscamingue Lake, then along the 50th or 51st degree of latitude to Red River and from there to this colony. It is asserted that the proposed route between the Otdifficulties that will have to be encountered by following the north shore of Huron and Lake Superior. Besides that, it would create a seaport either at Albany or Moose Factory, through which busi ness may be done with England; in fact Moose Factory is gravely talked about as the North-eastern terminus of a nation-al route to connect British Columbia with England. Moose Factory, has however, one serious difficulty to overcome, that is, to clear Hudson's Bay of ice long enough to make it serviceable for navigation. But unless the Canadians now that they have possession of the country can warm up the North Pole so as to melt warm up the North Pole so as to melt the ice around it, we see no grounds for the belief that Hudson's Bay can be used for a longer period than six weeks a year for shipping purposes. And consequent. for shipping purposes. And consequently Mr. Burn's project is never likely to be

Memory presides over the past. Fell's Coffee over the present. The first lives in a hrictemple hung with glorious trophies, and lined with tombs, but Fell's Coffee has but one shrine and that is every breakfast table. Its aroma walks the earth like a spirit and can be found for sale at every respectable dealers in British Columbia. Beware of

Who brought down the price of the best Nanaimo coal from \$11 to \$8 50 and \$9 00 per English ton! Why Frain of course, and be intends to keep a doing of it, all the time. Buy your coal of Frain.

MAGIC SOAP

and on reasonable terms.

Directions for Using Robinson's Magie Soap for doing a Large Family Washing in Two Hours, of Five or Siz Dozen Preces. 1. Cut up fine a bar of the Soap, and put one-ha 1. Cut up fine a bar of the Soap, and put one-ha of it into your boiler with sufficient water to cover your white clothes to be washed, and let the Soap dissoive; then put your clothes in, stirring them, and let them into come to a boil; then pour out clothes and water into a tub and let them soak twenty or thi ty minutes, stirring them round in the tub occasionally to loosen the dirt. Such artices as collars, wristbands er any ar icle very dirty, should be rubbed through the hands a litt e while soaking in order to thoroughly loosen the dirt before boiling.

2. While your clothes are soaking put the other half of your cut Soap into your boiler, with sufficient clean water to boil, and let it be heating. After your clothes have soaked wring them out well and put into your boiling water, and let boil from 8 to 10 minutes; then rimse, blue and hang out to dry. If the above directions are followed, we will guarantee your clothes clean and white. Houses. He mesteads or from will fad harge number on his lut ith which to make.

white.

3. For your celored and woollen clothes use the same water you soaked and boil your white clothes with, only heating it up again, and pour it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your hands while soaking, if very dirty. Then rinse in clear water, warms a your hands will bear, and you will thus accomplish a large washing in two hours.

By cutting up a bar of this Soap into two gallons water, and let boil until thoroughly dissolved, and then leave to cool, you will have two gallons of beautiful SOFT SOAP, as good as Common Soap for general house pur poses.
